Dear David:

I wanted to thank you for your efforts in helping my company with the franchise registration process in the State of Maryland. The Grout Medic is currently registered in many other states but Maryland seemed to be something that we could not handle and you certainly completed the task for us in short order. I have worked with many attorneys in the past who give the right answers in the beginning but do not follow thru with their promises which was not the case with you. You accomplished everything you said that you would in the desired timeframe and had our Franchise Agreement and UFOC in the hands of the Attorney General's office within days of receiving it from me and then approved. Again, thank you for your quick and professional response and I look forward to working with you again soon.

Sincerely,

*Chris Burgin*
