

Since engaging the Franchise & Business Law Group last summer, David Cahn and the firm have been instrumental in helping us achieve our franchising goals. The firm managed our 2007 renewal process with both great care and efficiency, while also handling our additional needs as new franchisees came into our system. David provided prompt and thoughtful responses to all of our questions and concerns, and we are truly pleased to have a single uniform franchise disclosure document that we can provide to franchisees in virtually every state.”
